Re: **NOTICE OF EX PARTE MEETINGS**
CC Docket No. 94-102
RM-8143
Compatibility with Enhanced 911 Emergency Calling Systems

Dear Ms. Dortch:

On May 30, 2002, George Marble, Vice President, Marketing, Grayson Wireless Division ("Grayson") of Allen Telecom, Inc. ("Allen") and I had three *ex parte* meetings as follows: (1) with Samuel Feder from the office of Commissioner Kevin J. Martin, (2) with Bryan Tramont and Joyce Craig-Rient from the office of Commissioner Kathleen Q. Abernathy and (3) with Peter A. Tenhula from the office of Chairman Michael K. Powell.

We provided an update on the deployment and status of the Grayson Wireless Geometrix® network-based wireless E911 location system. Specifically, we discussed that Geometrix® was the first E911 Phase II-compliant location system in commercial service, that Geometrix® is the most deployed of any E911 caller location system, and that Geometrix® is compatible with CDMA, TDMA, GSM, AMPS, and iDEN wireless technologies without the need to replace or modify handsets.

A copy of the handout that was provided at the meetings is attached.

Very truly yours,

/s/

Eliot J. Greenwald
